

## 26320 Control Kit for Canon Drop-In Filter Mount Adapter EF-EOS R

### Instruction Manual

#### FOREWORD

Thank you for your purchase of a NAUTICAM product.

At NAUTICAM, we pride ourselves in the ability to recognize the requirements of professional as well as amateur underwater photographers and fulfill them through the innovative designs of our products. We strive to achieve a high level of user-friendliness by allowing stress-free installation and easy operation of all important functions of the camera.

Please read this manual carefully before using the product, this will maximize its performance as well as its lifetime.

#### WARRANTY

All NAUTICAM Products are warranted against any material and manufacturing defects for two years from the date of purchase for consumer use. This warranty only applies to products purchased from authorized NAUTICAM dealers and does not extend beyond the original retail purchaser.

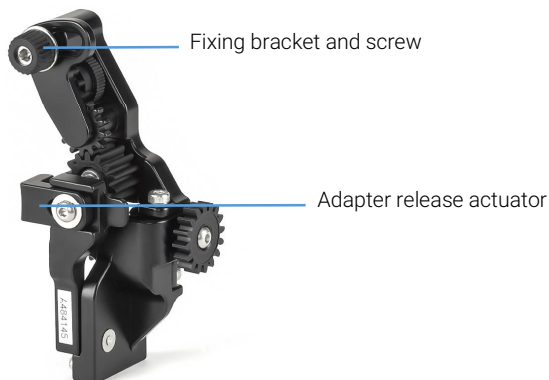

To return your product for service, please contact your regional authorized service center(s). Please note that this warranty only applies when the product is purchased in the territory where the service center is located.

NAUTICAM does not hold responsibility for damage, of any nature, to any equipment used with and/or placed within our products.

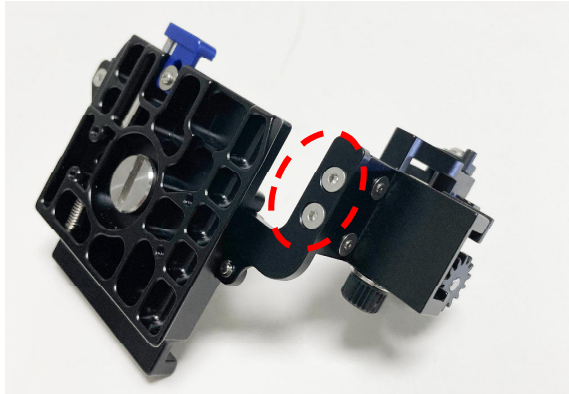

NAUTICAM accepts no liability for any loss of captured images or the inability to capture images even if it is due to the malfunctioning of our products.

Unauthorized modifications and/or repairs of our products will automatically invalidate the warranty.

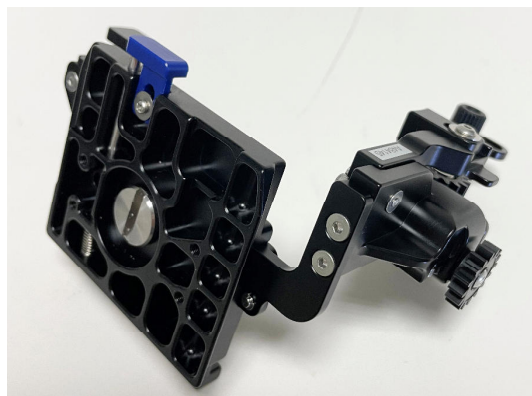

#### IDENTIFICATION OF PARTS

#### INSTALLING THE CONTROL KIT TO THE CAMERA TRAY

1. By unscrewing the two screws as shown, remove the original assembly of NA-R5/6 camera tray.

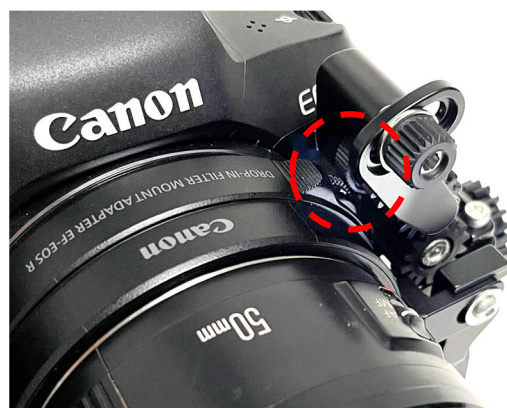

2. Mount #26320 Control Kit for Canon Drop-In Filter Mount Adapter EF-EOS R on the housing camera tray, then tighten the two screws as shown.

3. Then, attach the saddle of the camera to the camera (Please refer to the housing manual for mounting the camera tray)

4. To make an engagement with the adjustment dial of the adapter and fixing bracket of control kit, push inward the fixing bracket of the control kit after unscrew the thumb screw as shown.

5. Confirm that the adjustment dial and lens release button operate correctly after mount the camera on the housing.
